

Straculencu Andrei

Date of birth: 27/12/2004 | Place of birth: Braila, Romania | Gender: Male | Nationality: Romanian | Phone: (+40) 724183233 (Mobile) | Email address: andrei.straculencu@yahoo.com | Website: walliez.xyz | Address: Strada Toplita Nr.77, 505800, Brasov, Romania (Home)

About myself

I'm an Engineering Student with a genuine curiosity for how complex systems work under the hood. Right now, I'm focused on software development, specifically low-level programming and C++, with the ultimate goal of building a career centered around software internals, reverse engineering, and cybersecurity.

Whether it's diving into software architecture or figuring out how to make code run more efficiently, I love the challenge of deep, analytical problem-solving. While my long-term passion lies in vulnerability research, I'm eager to apply my technical mindset across various IT domains, from application development to system analysis.

I am actively looking for an internship where I can contribute to real-world projects, write clean and efficient code, and learn from a professional team. If you're looking for an adaptable developer who isn't afraid to get into the weeds of how things work, let's connect!

Education & Training

High School Graduation Certificate | Colegiul National "Nicolae Bălcescu" | 14/09/2020 - 15/06/2024 | Braila, Romania

Advanced Mathematics and Physics: Developed strong analytical thinking and problem-solving skills.

Informatics (Computer Science): Studied C++ programming, algorithms, and data structures.

Information Technology: Gained proficiency in Microsoft Office Suite (Word, Excel, PowerPoint) and database management.

Scientific Research: Applied logical reasoning to complex technical theoretical problems.

Field(s) of study: Mathematics | Level in EQF: 4

Skills

C++ (Advanced) | Microsoft Office (Word, Excel, PowerPoint) | Python (intermediate) | Java (intermediate) | Reverse engineering (Beginner) | Assembly language (x86 or x64) | JavaScript | Teamwork

Soft Skills | Problem-solving | English | Analytical skills

Language Skills

Mother tongue(s): Romanian

	Understanding		Speaking		Writing
	Listening	Reading	Spoken production	Spoken interaction	
English	C1	C1	B2	B2	B2

Driving Licence

Driving licence B

Creative Works

Producer - Sound Engineer | 16/02/2017 - Current

(

Music Production & Sound Engineering

Active in the music production field since **2018**, I have consistently developed my technical and creative skills in composing, mixing, and mastering. I possess an **advanced command of FL Studio (DAW)**, utilizing it to manage complex projects and high-track-count sessions.

Key Technical Competencies:

- **Advanced VST Manipulation:** Deep understanding of signal processing, synthesis, and sound design using industry-standard plugins.
- **Mixing & Mastering:** Proficient in balancing frequency spectrums, dynamic range processing, and spatial enhancement to achieve professional-grade loudness and clarity.
- **Workflow Optimization:** Expertise in automation, MIDI routing, and creative sampling techniques within a digital environment.

Music is more than a hobby; it is a discipline that has sharpened my attention to detail, my ability to learn complex software systems independently, and my creative problem-solving skills.

Projects

coolSearch | 04/05/2026 - Current

coolSearch is designed for extreme speed. While traditional search tools crawl your folders one by one, coolSearch talks directly to your hard drive's "internal map" (the Master File Table) to find every single file on your computer in less than a second. It combines the raw power of Rust with a sleek, modern React interface to make finding files feel instant. Write here the description
